Emergency Access Points

1. The landing platform at Holme Pierrepont can be accessed at: National Water Sports Centre, Adbolton Lane, Holme Pierrepont, Nottingham, NG12 2LU (GR: SK 6091 3892).

2. Nottingham Rowing Club is located at: Middle of Three, Trentside North, West Bridgford, Nottingham NG2 5FA (GR: SK 5824 3834).

3. The Toll Bridge can be accessed at: Victoria Embankment, NG2 5JY (GR: SK 5696 3816), on the north (City) bank.

4/5. At Clifton Bridge the river can be accessed at: Clifton Lane on the south (County) bank (GR: SK 5620 3671) and from Lenton Lane on the north (City) bank close to Grove Farm (GR: SK 5570 3643).

Significant Water Hazards and Emergency Access Points

- **Toll Bridge**: Has a narrow arch on the north (City) side. Coming downstream do not allow the stream to carry you wide otherwise you may encounter the central bridge buttress.
- **River Leen or ‘Black Gate’**: After heavy rain there can be a strong cross-current. Do not spin between here and the Toll Bridge.
- **River Lodge and TS Orion**: Moorings for large cruise boats.
- **Embankment**: The stream can push you out. Keep close to the north (City) bank when going upstream around the tight bend.
- **River Leen or ‘Black Gate’**: Be aware of shallow and fast flowing water on the approach from Clifton Bridge.
- **Suspension Bridge**: Buttress on south (County) bank protrudes into the river.
- **Trent Bridge**: All downstream pieces to terminate at the Princess Landing Stage and paddle at light pressure through the middle arch of the bridge.
- **Trent Bridge**: Going upstream the current can push you out. Keep a careful lookout when travelling in both directions.
- **Welford and ‘Bee Bank’**: Weeds may be prolific in summer. Channel can be narrowed so take care of boats straying into the middle.
- **Holme Lock and Sluices**: Avoid at all costs unless permission has been given to go through the lock! Outings to terminate at least by the white water course entrance. If going through the lock (down) keep to the right to avoid intake of HEP station. Watch for traffic exiting the lock.
