

MANAGING

FLOATING PENNYWORT

SEE IT (IDENTIFICATION)

This invasive non-native species, found UK-wide threatens to choke our waterways and could **stop rowing**

Look for leaves around 7cm wide with fine roots and fleshy stalks

The plant is very fast growing and creates dense mats

REPORT AND REMOVE IT

Visit the British Rowing website to report and manage Floating Pennywort and contact sustainability@britishrowing.org

**PROTECT OUR SPORT
AND BIODIVERSITY!**

PREVENT IT

Familiarise yourself with the Check-Clean-Dry protocol

Use it going to competitions or other waterbodies to stop the spread!
